

Work experience students help to shape the future of your industry

Why should I offer a placement?

- Fresh perspectives and new ideas from students that could contribute well to your company
- Career development opportunities for existing staff to supervise and mentor a young person
- Extra resources and support for your everyday operations at no additional cost
- Strengthen recruitment by meeting talented students who are eager to meet employers in their industry.

What do I need to know?

Work experience takes place at different times of the year, depending on the course of study and are typically 1-2 weeks long.

Placements should be structured, supervised and include meaningful work and tasks. Before the placement begins you will need to sign our employer agreement form which asks for your employer liability insurance. This is necessary for our records to ensure the students are covered during their time with you.

A student has contacted me about work experience, what now?

We will contact you once the student has given us the details of the placement and will provide you with our supportive guidance documents and employer agreement form.

We can also provide you with their course content to assist you with planning suitable tasks and jobs for them to complete during the placement. We are always available to support with any queries or questions you may have before, during and after the placement.

I haven't been contacted but would like to offer a placement, what can I do?

Often we have students that will ask us for help with finding work experience. It is always great to know that companies are keen to offer this opportunity to students. Get in touch with us and we will add your details to the system and send some students your way.

The work experience team is always here to help.
